Hot tub catalogue

MADE IN CZECH REPUBLIC

HANSCRAFT
european spa producer

Membership and certification:

HANSCRAFT builds upon more than 15 years of hands-on experience with importing, reselling and maintenance of premium hot tubs. Thanks to this experience we take care to design products that are comfortable to use while being harmless to health, extremely durable and defectless.

SPA EXPERIENCE ACCESSIBLE TO EVERYONE

We believe that relaxation is an important part of a healthy balanced lifestyle. Our hot tubs therefore offer a premium quality spa experience that is affordable for families with children, active sportsmen as well as couples, that want to enjoy simple peaceful moments in each other's company.

DESIGNED FOR BODY AND SOUL

Martin Prochazka, MSc., the physiotherapist of Czech leading sportsmen, oversees that all our hot tubs enable the body to assume natural position and receive a truly effective massage.

DESIGN WORTH SHOWING OFF

Your eyes will be as delighted as your body. The modern shapes and appealing cabinet of our bath tubs, designed by Ondrej Kamenicky, M.Arch., will upgrade and complete the exterior of any garden.

MINDFUL OF HEALTH AND NATURE

Always keeping the environment in mind, we select only the highest quality materials harmless to both health and nature. On top of that we recycle all of the leftover materials and introduce it back to the manufacturing process. That makes us a close to zero-waste company (97%).

WORLD CLASS LEAGUE

We pay attention to the smallest details. Thanks to first-class materials and precise execution, we can guarantee an extreme durability of all our hot tubs. Each product undergoes a strict testing in real life circumstances which helps us to eliminate 99% of possible defects and malfunctions.

SHORT DELIVERY TIME

Have you already selected the best suitable hot tub for you? Good news is that you will not have to wait too long to enjoy it at home.

YOUR COMFORT IS OUR COMMAND

Our design process is heavily influenced by Martin Prochazka, MSc., the physiotherapist of Czech leading sportsmen, who oversees that all our hot tubs always offer both a comfortable and highly effective massage. They will further charm you with their modern, appealing appearance, designed by Ondrej Kamenicky, M.Arch.

WE ALWAYS CHOOSE THE GREEN WAY

Instead of using shell lamination which creates harmful styrenes as a by-product, we use high quality GreenShield materials. They are completely harmless to both health and nature. On top of that we recycle all of the leftover material and introduce it back to the manufacturing process. That makes us a close to zero-waste company (97%).

PRECISE EXECUTION OF EVERY DETAIL

We work with the latest technology and machinery, currently also used in automotive, aircraft and arms industry. That enables us to be precise to a hundredth of a millimeter. Precision and quality are areas which we never compromise in.

STRICT QUALITY TESTING BEFORE SHIPMENT

Not one hot tub leaves our manufacture hall without a series of strict and thorough testing procedures. We test all our products in real life circumstances which allows us to eliminate 99% of possible defects and malfunctions. We are also inspired by the hardline quality control of TPS (Toyota Production System).

Discover the OKA design hot tubs, exclusively designed by the architect Ondrej Kamenicky. Their distinctive lines and ergonomic layout will provide you with utmost comfort and an efficient hydrotherapeutic massage. All tubs are spacious enough even for people of taller stature.

OKA 1 / AMETHYST

200 x 100/150 x 206,2/78 cm | 900 liters | 200 kg | Power supply 3P/380V/50Hz
